* including parental leaves (twice)

Education

Ph.D. *Georgia Institute of Technology* (Atlanta, GA USA), 2009-2014
M.Sc. *Fudan University* (Shanghai, China), 2006-2009
B.Sc. *Fudan University* (Shanghai, China), 2002-2006

Research Interests

I am broadly interested in cyber-security and distributed systems. My current research focuses on infrastructure security and efficiency, in emerging applications such as blockchains, web infrastructures, cloud computing, etc. My research tackles the fundamental design tradeoff between security and performance/cost. On the one hand, I analyze and measure large-scale deployed systems to identify, verify, and mitigate vulnerabilities. On the other hand, I optimize performance and build middlewares on security-centric systems.
